Game Identity ideas:

- Cotton candy world where a cute cotton candy being travels across levels of different cotton candy colors
- Cat in the streets of cairo
- Cat in the streets of a metropolis
- Cat or any other animal/bug in a forest environment.

Final decision:

Cat lost in a forest trying to find his home, he has a collar and he misses his family. He tries to hunt as best as he can and parkours over the challenging landscape.

Note:

I downloaded aseprite, and the way i'm thinking about it is I'll try to mix and match already existing sprites, sometimes modifying colors and/or adding details to fit the overall aesthetic of the game.
